

Sewer Lateral Lining

In an effort to assist residents find a contractor to perform sewer lateral televising, cleaning and lining, the Village issued a Request for Proposals (RFP) to local sewer contractors. Following is a summary of the information provided by the three companies who responded to the RFP. Residents can call the Engineering Department at 847.853.7600 with questions regarding this information. Please note that a plumbing and possibly right-of-way permit are required for this work.

Definitions:

Sewer Lateral (often referred to as “sewer service”): The sewer pipe that connects your home plumbing with the main sewer in the street. Per the Village Code, this pipe is the maintenance responsibility of the home owner.

Clean-out: The pipe connected to the lateral, which rises up to the surface. The cleanout allows access for the sewer liner to be installed and future cleaning.
