TO: Timothy J. Frenzer, Village Manager

FROM: Brigitte Berger, P.E., Director of Engineering and Public Works

SUBJECT: Supporting Materials for the September 12, 2016 Committee of the Whole Meeting

---

At the Village President's request, attached are a spreadsheet and corresponding map of pavement condition indexes (PCI's ) for all streets in the Village, except brick streets. It is important to note that the Section ID (far left column) does not necessarily correspond to a typical block. Rather, the ID references roadway sections with similar pavement characteristics, such as pavement type, condition and construction date. To accurately locate the PCI for a specific street, refer to the location map first and then look for the corresponding Section ID on the spreadsheet.

Surface Description  
 ABR=Asphalt over brick  
 APC=Asphalt over concrete  
 AC=Asphalt Street  
 PCC=Concrete Street
