

THE COMMUNICATOR

★ OCTOBER 2017 / JANUARY 2018 ★

VILLAGE CONTINUES CONSIDERATION OF STORM WATER PROJECT

In the last decade, the Village experienced several significant storms which caused widespread basement and overland flooding. In response, the Village Board initiated an aggressive plan to address the performance of the sewer systems west of Ridge Road. The highest priority projects were those that focused on reducing the severity and frequency of sanitary sewer basement backups. In 2013, the Village Board approved a \$24 million bond issue to construct several major sanitary sewer projects which have significantly improved performance of the sanitary sewers on the west side of Wilmette.

In 2014, with many of the sanitary sewer projects either completed or well underway, the Village Board hired the engineering firm of Christopher B. Burke Engineering to conduct a comprehensive study of the separate storm sewer system to address street and overland flooding. The performance goal of the study was to identify projects that would keep flood levels below street level for a 10-year storm event (a storm having a 10% chance of occurring in a given year).

In 2015, Burke presented a number of possible projects that would provide 10-year flood protection, with the most effective being the construction of 44,000 feet of new storm sewer west of Ridge Road at an estimated cost of \$80 million (in 2017 dollars).

In 2016, the Village hired a second engineering firm, Stantec, to verify and validate the proposed project's costs and associated benefits. Stantec concurred with the conclusions of the Burke study regarding the effectiveness of the project, while also noting that the project could cost as much as \$95 million (in 2017 dollars).

In 2017, to ensure that all alternatives and lower cost options were considered, the Village tasked Stantec with exploring all possible options to reduce the depth and duration of overland flooding west of Ridge Road. The feasible project alternatives range in cost from \$48 - \$95 million (in 2017 dollars) and provide varying levels of flood protection.

NEXT STEPS

The Village has held 15 public meetings on this project and is confident that it has explored all reasonable alternatives to provide some amount of flood relief west of Ridge Road. Now that the studies have been completed, the Village Board will be moving from the study phase of the project to the decision-making phase.

In November, the Village Board will continue its review of the project alternatives and explore in more detail the financial impacts of a large stormwater project to the community.

All storm water meetings are open to the public, and we hope to see you there. Check the Village's website or sign-up for our weekly e-news blasts for specific meeting dates.

WE WANT TO HEAR FROM YOU

A major stormwater improvement project could potentially be the largest single investment in the Village's infrastructure in at least 75 years. The Village will be working to ensure that the project selected will provide the best combination of effectiveness and prudent use of taxpayer dollars.

Because of its significant cost and impact to the community, we want to hear from you. You may email your comments to sewers@wilmette.com.

Detailed information on the project can be found on the Village's website at <https://www.wilmette.com/village-services/stormwater-improvement-project/>.

PRESIDENT'S LETTER

LETTER FROM VILLAGE PRESIDENT BOB BIELINSKI

Last June, the Village Board adopted an ordinance "opting out" of Cook County's attempt to establish new minimum wage and paid sick leave laws, which are applicable only in Cook County and materially different from both state and federal law.

Wilmette was not alone in taking action as an overwhelming majority of approximately 110 suburban Cook County municipalities have also enacted similar ordinances which preserved the status quo of working conditions being governed by state and federal law, not Cook County's ordinances. Only approximately 18 communities (notably Evanston and Skokie) have not opted out.

Many people hold strong opinions on this issue, but I hope everyone will join me in respecting the sincerity and good intentions of those who view the issue differently.

I'd like to share some details to help residents be better informed on the issue that faced the Village Board.

BOYCOTTING BUSINESSES?

Before I begin, I have to say that I am truly saddened by the behavior of a small number of individuals who disagreed with the Village Board's decision. I regret to say that there are Wilmette residents who are organizing boycotts and retaliation against local businesses for no offense other than sharing their concerns publicly with the Village Board.

These ongoing attempts to chill free speech and harm local businesses are very disturbing. In Wilmette, we have a long standing tradition of civil discourse in an environment of mutual respect for our neighbors. Threats and harassment have no place in Wilmette, regardless of how strongly one may feel about an issue.

Our local businesses are primarily small family-owned businesses. These businesses give generously to our community, support sports teams, schools and charities, organize community parades, festivals and events.

Punishing them is not only unfair, it is self-destructive. If businesses are forced to close, workers are left looking for new jobs, and Wilmette residents get an empty store front.

So, please ask your fellow residents to stop this behavior, and continue to support our local businesses that play such an important role in making Wilmette a great place to live.

COOK COUNTY'S ORDINANCES

In the fall of 2016, the Cook County Board approved an ordinance (effective July 1, 2017) which increases the minimum wage in Cook County from \$8.25 per hour to \$13.00 per hour, a 58% increase over three years. Some are saying that the Wilmette Village Board said no to a \$10 per hour minimum wage, but that statement is inaccurate and misleading.

Under the County's ordinance, the first increase in the minimum wage is to \$10 per hour on July 1, 2017, but the ordinance also mandates annual \$1 increases until the minimum wage reaches \$13 per hour on July 1, 2020. In addition, the minimum wage will automatically increase each year thereafter by the percentage increase in the Consumer Price Index (CPI).

The Cook County Board also approved an ordinance (effective July 1, 2017) mandating paid sick leave benefits for all employees who work at least 80 hours during a 120 day period (less than one hour per day on average). If you have one employee (including a domestic employee, such as a nanny), you are required by this law (and at risk for triple damages plus attorney's fees) to start tracking accrued sick leave benefits.

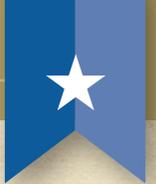

The County Commissioners enacted these ordinances despite knowing that they lacked the legal authority to do so, ignoring a written opinion from their own attorney which stated that the Illinois Supreme Court has been clear that such power rests exclusively with the State. Like the County, under Illinois law, the Village of Wilmette also does not have the legal authority to enact its own minimum wage and sick leave policies.

In addition, the County Board also chose to exceed the direction given by voters through two ballot referenda. In 2014, voters supported increasing the state minimum wage in Illinois to \$10 per hour, and in 2016, voters supported a statewide sick leave benefit. Voters not only supported both issues on a statewide basis (not just for Cook County), but voters also backed a much smaller increase in the minimum wage (\$10 vs. \$13).

Finally, it should be noted that the County Board did not take time to study the potential impact of the ordinances on suburban communities before enacting them. There were no working groups, no public meetings, no economic studies, no public participation in the process by community leaders, business leaders, labor leaders or local government officials.

COMMUNITIES BEGIN "OPTING OUT"

Soon after the County's ordinances were enacted, communities across suburban Cook County began recognizing problems with the County's approach. Particularly concerning was the uneven economic playing field that the County's ordinances created.

Cook County's approach created an uneven playing field because its laws apply only to communities in Cook County and not to communities just across the border in other counties.

To understand how an uneven playing field can affect economic activity, consider the immediate negative consumer reaction to Cook County's new soda tax which has already resulted in significant lost sales for suburban Cook County businesses.

Under the Illinois Constitution, local ordinances override conflicting county ordinances, and in early 2017, communities started "opting out" of the County laws by adopting conflicting ordinances which preserved the status quo of state and federal laws governing working conditions in their towns.

Municipalities near the County borders were first to opt out, but the concerns spread quickly. As each additional community opted out, the "economic boundary line" problem shifted to the border with the next village. By June, the economic boundary line had moved to just west of Laramie Avenue, after Glenview joined virtually all of the towns west and northwest of Wilmette in opting out.

RISKS FOR WILMETTE

While I support an increase in the minimum wage on a statewide basis, I could not support Cook County's ordinances.

First, I take issue with the County Board's process and actions because they lacked the legal authority to enact the ordinances, they exceeded the direction previously given by voters, and they did not thoughtfully consider the potential impact of these significant changes on suburban communities.

Also, with nearby communities like Glenview opting out of the County's ordinances, Wilmette now would face an uneven economic playing field which creates risk for our entire community and gambles with our future.

Subjecting our businesses to this uneven playing field risks reversing the significant progress we've made improving the attractiveness of our downtown and encouraging growth in all our business districts. This uneven playing field also risks making it more difficult for Wilmette to attract new businesses.

Recent experience with the County's new soda tax clearly validates concerns over this type of risk.

Taking this type of risk is unnecessary because there is a better way to increase the minimum wage and enact paid sick leave. Changes implemented on a statewide basis would not create an uneven playing field since all communities would be governed by the same laws, but the County's approach has created a patchwork of different laws and created these very real risks for suburban communities.

While it's understandable to be frustrated over the inability of state government to reach agreement on these issues, frustration does not legitimize ignoring the law or exposing our communities to unnecessary risk, no matter how well intentioned.

For these reasons, I supported Wilmette opting out of the County's ordinances and preserving the status quo of working conditions being governed by state and federal law.

MORE INFORMATION AND CONTINUED MONITORING

When the Village Board voted to opt out of the County's ordinances, the Board asked the Staff to gather more information and statistics about Wilmette's local economy and business community and to continue to monitor developments in neighboring communities which have opted out and not opted out.

I've asked the Finance Committee of the Village Board to plan and organize the information gathering efforts. The Committee's first meeting on the topic will be on November 13th, after completion of the annual budget process frees up Village staff resources to focus on the project. I expect the Committee will initially report back to the Village Board in early 2018, but it may take some time to evaluate the impact of the County's ordinances in neighboring communities and in Wilmette.

The Village Board welcomes hearing from you on the minimum wage discussion. If you'd like to share your opinion, please send an email to countystudy@wilmette.com.

I encourage everyone to stay up-to-date by signing up for the Village's E-News, checking the Village's website (wilmette.com) and following us on Twitter (@VofWilmette), Facebook and NextDoor.

In closing, I would like to wish you and your family a happy and healthy last few months of the year. As we enter the holiday season, please remember to patronize our restaurants, retail shops, entertainment venues and service establishments throughout the Village. A gift (or gift certificate) from a local business is a far more thoughtful gift than just another Amazon or iTunes gift card!

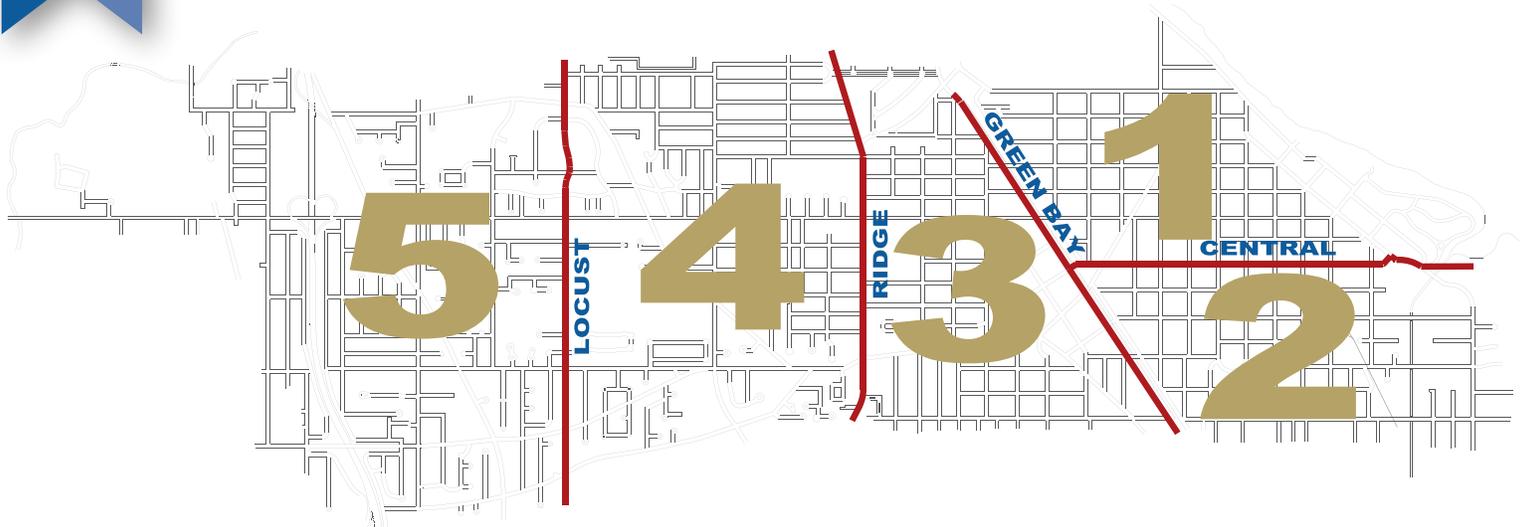

Please remember that the Village Board, the Village staff and I value your thoughts and ideas on ways to improve the quality of life in Wilmette. Thanks to all of you who help make our Village a great place to live, work, raise a family and retire.

Very truly yours,

BOB BIELINSKI, VILLAGE PRESIDENT

****PLEASE NOTE:** During a two-day collection period, only **one** collection is made for each street and will occur on **either** the first **or** second day of scheduled collection. Residents must have their leaves raked out no later than 7:00 a.m. on the **first** scheduled collection day.

LEAF COLLECTION BEGINS OCTOBER 16

The Village's Leaf Collection Program will begin on October 16 and run through December 8, weather permitting. Residents who live on residential side streets are asked to rake leaves to the curb. Residents who live on arterial streets (Lake Ave, Wilmette Ave, Sheridan Rd, Green Bay Rd, Ridge Rd, Skokie Blvd and Hibbard Rd) should place leaves on the parkway behind the curb due to heavy traffic.

In order to be collected, leaves must be in a loose condition, not in bags or containers. Please avoid raking leaves on the street until two days prior to your scheduled collection day to prevent the clogging of storm drains.

Street parking will be prohibited on scheduled leaf collection days. Please adhere to posted parking restrictions to ensure that leaves can be collected as scheduled. Leaf piles blocked by vehicles will be skipped, and the vehicle will be ticketed.

The 2017 collection schedule is published on page 4 as well as on the Village website, www.wilmette.com. If you have any questions regarding the leaf collection program, contact the Engineering & Public Works Department at (847) 853-7500 or pubworks@wilmette.com.

CHRISTMAS TREE COLLECTION

During the first two weeks in January, Advanced Disposal will collect Christmas trees for composting on Wednesdays. Please place your Christmas trees at the location of your regular recycling pickup. Residents with alley access should place trees in the alley to ensure timely collection. Only residents without alley access should place trees at the curb for collection. Trees must be devoid of any ornaments, tinsel, garland or plastic/fabric bag wrap. Other holiday decorations, such as wreaths and garland may be bagged with garbage and set out as refuse.

HOLIDAY LIGHTS RECYCLING PROGRAM

The Village of Wilmette, in partnership with Elgin Recycling and the Solid Waste Agency of Northern Cook County (SWANCC), will be accepting holiday lights for recycling from Monday, November 20, 2017 through Wednesday, January 31, 2018.

Holiday lights can be dropped off at the Wilmette Public Works Facility, located at 711 Laramie Avenue. The recycling boxes will be located in the visitor's parking lot, accessible 24-hours a day.

SEWER SYSTEM DO'S & DON'TS – PROTECT YOUR HOME!

Village crews are responsible for maintaining approximately 135 miles of Village-owned sanitary, storm, and combined sewer systems. Maintenance includes routine cleaning, troubleshooting, and repair of cracked or broken sewer tile. The Village only assumes responsibility for the public sewer main line. Property owners are responsible for the maintenance and repair of their sewer lateral, the service line that connects their house to the public sewer.

Improperly maintained sewer laterals can result in sewer backups, which can cost residents thousands of dollars in repair and clean-up costs. Here are some helpful tips to prevent sewer backups:

- ★ **DO NOT** flush paper towels, sanitary products, diapers, or baby wipes. Sanitary sewer systems are only designed to handle used water, human waste, and toilet paper.
- ★ **DO NOT** pour grease, fats, and oils from cooking down the drain.
- ★ **DO** perform regular preventative maintenance on your sewer lateral.
- ★ **DO** televise your lines; rodding may not be enough! A licensed contractor with the ability to televise your lines (film with a camera) will be much more effective in detecting potential problems, such as cracks in the lateral. Cracks can be remedied with sewer lining before becoming cave-ins, which are much more expensive to repair.
- ★ **DO** consider installing a backflow prevention device to protect your home from a broken or blocked lateral.

If you suspect that you are having sewer trouble, please contact Public Works at (847) 853-7500 during regular business hours, or the non-emergency Police at (847) 256-1200 after hours. Employees will inspect the main sewer line to determine if there is a restriction. If it is determined that the main line sewer is the problem, it will be cleaned and/or repaired by the Village. If the main line sewer is not restricted, the property owner will be advised that the problem is in their service line and that they should have the line inspected by a private contractor.

The recycling program will accept all holiday string lighting (all colors and lengths); includes:

- ★ Mini-lights (or Italian lights)
- ★ C7 lights
- ★ C9 lights
- ★ Rope lights
- ★ LED lights
- ★ Extension Cords

Lights must be free of packaging and should not be bagged. Garland, live greens, and wreaths are not accepted with this program. These items should be disposed of through the regular solid waste program.

If you have any questions regarding the Holiday Lights Recycling Program, please contact the Engineering & Public Works Department at (847) 853-7500 or pubworks@wilmette.com.

CHAMBER OF COMMERCE EVENTS

TASTE OF WILMETTE & KENILWORTH

Wilmette residents and business owners are invited to enjoy food, craft beer and wine tastings at the Chamber of Commerce's Taste of Wilmette & Kenilworth on Thursday, October 26th from 5:30 to 7:30 p.m. Your favorite restaurants, caterers and markets will be showcasing their most delicious offerings. The event will be held at the Kenilworth Assembly Hall at 410 Kenilworth Ave. in Kenilworth. A portion of proceeds will benefit the New Trier Educational Foundation. Tickets for the event are \$40 and can be purchased at www.wilmettekenilworth.com.

4TH & LINDEN PUMPKIN WALK

Families are invited to attend the annual 4th & Linden Pumpkin Walk on Saturday, October 28th from 11:00 a.m. to 1:00 p.m. Enjoy a petting zoo, magician, balloon artist, face painting, dance performances and trick-or-treating at local businesses. Come dressed in your Halloween costume to enjoy the fun! The event is hosted by the Chamber and sponsored by chamber members in the 4th & Linden Business District.

HOLIDAY PARADE & TREE LIGHTING CEREMONY

Get ready for the Chamber's annual Holiday Parade on Saturday, November 18th. Of course, Santa will be there and he looks forward to greeting kids after the parade. The event will kick off with the Tree Lighting Ceremony in front of Village Hall on Friday, November 17th at 7:00 p.m. Please email the Chamber at info@wilmettekenilworth.com if your community group would like to march in the parade. The event is organized by the Wilmette/Kenilworth Chamber of Commerce and sponsored by chamber member businesses.

HOLIDAY OPEN HOUSE

The merchants in Downtown Wilmette will host their annual Holiday Open House on Thursday, November 16 from 5:00 to 9:00 p.m. Moms and Dads are invited out for a night of great shopping with lots of treats.

For information on all of these events, visit www.wilmettekenilworth.com or call (847) 251-3800.

SNOW PROGRAM – CREWS BUSY PREPARING FOR THE UPCOMING WINTER SEASON

In early September, the Engineering and Public Works Department initiated a comprehensive, self-assessment and review of snow and ice control operations. While the purpose is to improve quality of services and gain efficiencies in all facets of the snow program, the Village's established service priorities will remain unchanged (i.e. arterial streets, business/commuter sidewalks, school walking routes, side streets and cul-de-sacs, parking lots, alleys and residential sidewalks).

The revised plan will solidify standard operating procedures and set specific goals for completion of plow and salt routes during all types of winter precipitation events. The Public Works Department will be refining its resource allocation to optimize existing labor and equipment, and will be putting in place additional processes for quality assurance, including the use of spatial analytics to monitor performance.

HALLOWEEN TRICK OR TREAT HOURS AND SAFETY

Halloween Trick or Treat hours are from 4:00 p.m. to 8:00 p.m. on Tuesday, October 31st. The Police Department offers the following tips for a safe and spooky Halloween:

- 👻 Children should only go to homes where parents know the residents and stay on the porch or front steps to receive treats
- 👻 Children should cross the street at the intersection, not in the middle of the street or between parked cars
- 👻 Adults should inspect all candy before it is eaten
- 👻 Costumes should allow the child to see and hear perfectly. Little ghosts and goblins should be able to hear and see vehicles
- 👻 Costumes should be bright colored or have glow-in-the-dark patches so drivers can see the children. Flashlights and glow-sticks can help!
- 👻 Go with the kids! It's safer for them

FIRE DEPARTMENT OPEN HOUSE

The Wilmette Fire Department and Sparky the Fire Dog would like to invite everyone to this year's Open House on Saturday, October 14th, from 9:00 a.m. until noon. The event will take place at Fire Station #26 located at 1304 Lake Avenue. Fire apparatus will be on display along with special rescue equipment and more. Don't forget to have the kids bring their favorite stuffed toy for our popular Teddy Bear Checkup. There will be other activities for kids and parents alike including the Junior Firefighter Obstacle Course and our Public Safety Smoke Trailer. This year we have added live demonstrations for vehicle extrication and rappelling by our Technical Rescue Team; all demonstrations are weather-dependent. Hope to see everyone there!

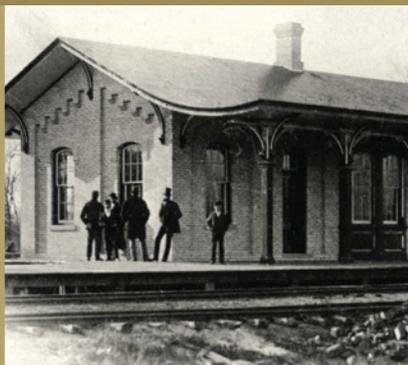

ARTS AWARENESS MONTH

In celebration of Arts Awareness Month, the Village of Wilmette Human Relations Commission presents a Community Photography Exhibit, 'Hats Around the World', featuring 13 Wilmette photographers at North Shore Community Bank, 1145 Wilmette Avenue, Wilmette, during the month of October. Bank Hours are Monday through Friday, 8:30 a.m. to 5:00 p.m. and Saturday 8:30 a.m. to 1:00 p.m.

Participating Photographers are: Patricia Berg-Drazin, Jill Dunbar, Rich Fisher, George Hossfeld, Faye Jacobs, Patience Kramer, Beth Lambrecht, Rino Liberatore, Jan Loew, Jerry Loew, Peter Nussbaum, Laura Rodriguez, and Pat Velasco.

In an effort to reduce costs and lessen the impact of salting operations on the environment, the Village has redoubled its efforts to reduce the use of salt through the use of new technologies and innovative best practices.

In order to achieve long-term, sustainable improvements to the snow and ice control operations, this internal review will be ongoing and adapted over the next several winter seasons. Your feedback is important to us as to ensure that we improve upon our existing level of service. Stay tuned to the Village's website and other social media outlets for further updates on the Village's snow program. Residents with questions, suggestions or comments are encouraged to contact the Engineering and Public Works Department at pubworks@wilmette.com or (847) 853-7500.

WILMETTE HISTORICAL MUSEUM, OCTOBER 2017 - JANUARY 2018

LECTURE: WEST WILMETTE

Sunday, October 15, 2017

Free for members, \$5 non-members

Museum Director Kathy Hussey-Arntson and Curator Patrick Leary will give a behind-the-scenes look at the making of the current exhibit "Exploring West Wilmette."

DONUTS AND DOCUMENTS: THE 1893 WORLD'S FAIR

Sunday, October 22, 2017

2:00 – 3:30 p.m.

Reservations required: \$5 for members, \$10 non-members

Enjoy an afternoon with donuts, readings and discussion that explore Chicago's 1893 World's Fair including its architecture, innovations, exhibits, patrons, and local connections to H.H. Holmes. Facilitated by Lori Matten, Board Member and former history teacher. No previous knowledge necessary.

LECTURE: WWI MEMORIALS & MONUMENTS

Sunday, November 5, 2017

2:00 – 3:30 p.m.

Free for members, \$5 non-members

In commemoration of the 100th anniversary of America's entry into World War I, Suzanne German of Landmarks Illinois will talk about the information and photos she has gathered about the World War I plaques, monuments and other memorials throughout Illinois.

HISTORY DETECTIVES CLUB: 1893 WORLD'S FAIR

Fall meeting

Program is for members only and open to kids in Grades K-6.

Call the Museum to join.

Did you know Cracker Jack, Juicy Fruit Gum and the Ferris wheel were first introduced at the 1893 Columbian Exposition in Chicago? History detectives will explore primary sources from this world's fair that attracted 27 million people to Chicago.

ANNUAL MEETING AND LECTURE: WATERWAYS OF THE NORTH SHORE

Sunday, January 28, 2018

2:00 – 3:30 p.m.

Free program, open to everyone

This talk by former Village President Vern Squires explores three local bodies of water: the tributaries which together feed the stream known as the North Branch of the Chicago River; the Skokie Lagoons; and the Botanic Garden. Each is familiar to everyone who lives on or near the North Shore, but each has a history which is likely not so familiar. A brief annual meeting with refreshments will precede the lecture.

**For more information visit www.wilmettehistory.org
or call (847) 853-7666**

WELCOME TO NEW BUSINESSES

The Village welcomes its newest businesses and thanks them for choosing Wilmette. Please remember to visit these and other Wilmette businesses while shopping this summer. We have a strong group of local merchants who are committed to you and appreciate your commitment to them. By supporting our businesses and buying locally, your sales tax dollars help pay for public services.
