Village to Conduct Flood Survey

In light of the recent rain storm on Friday, July 22 and Saturday, July 23, 2011, the Village is conducting a Village-wide survey to get an accurate account of basement flood occurrences. This information will be used to evaluate the existing sewer systems, as well as to plan for future improvements. The Village would also appreciate hearing from the residents that *did not* experience flooding on July 22/23. This data will be used to determine the effectiveness of the sewer improvements installed by the Village in recent years. Residents may also complete the survey on the Village website at www.wilmette.com.

If you have any questions, please contact the Engineering Department at 847-853-7660.
