5. Prevention of Injury or Damage

a. Safety of Persons

Consultant shall be solely and completely in charge of, and responsible for, maintaining the site and performing the work, so as to prevent accidents or injury to persons performing the work, and to any person on, about, or adjacent to the site where the work is being performed. This duty exists, and shall apply, continuously and shall not be limited to normal working hours. Consultant shall maintain and implement, and ensure that all Subcontractors maintain and implement, an appropriate safety/loss prevention program for the protection of employees and persons nearby. Consultant is fully responsible and assumes liability for the failure of Subcontractors to comply with the requirements of this Section.

Consultant shall be responsible for all applicable employee safety training/education, as well as accident record maintenance.

b. Protection of Public and Private Property

Consultant shall adequately protect the site, adjoining properties and all work from damage or loss arising in connection with, or during the performance of, the work. Consultant shall pay for any such damage, injury or loss caused by its agents, employees, or subcontractors

or from the action of the elements. Consultant will be required, without cost to the Village, to remove and replace all portions of the damaged work, and to repair or replace all damage caused to Village and private property and adjoining properties. Consultant will take sufficient precautions, and ensure that all Subcontractors take sufficient precautions, to prevent damage to property, materials, supplies, and equipment, and avoid interruptions in the performance of the work. Consultant is fully responsible and assumes liability for the failure of Subcontractors to comply with the requirements herein.

The Consultant shall resolve any claims for damage with the property owner within ten (10) days after damage occurs. Should the damage not be rectified within the time frame agreed upon or to the satisfaction of the property owner, and/or the Village, the Village reserves the right to repair or replace that which was damaged by the Consultant and deduct this cost from any payment due the Consultant.

c. Repair of Damage

Upon termination of the Contract, or upon completion of the work, Consultant shall repair or replace, at no expense to the Village, any damage to existing buildings, paving, landscaping, streets, drives, utilities, Right-of-Way, or other Village property arising during the performance of the work or incidental thereto caused by Consultant, any Subcontractors, material suppliers, or others performing work on behalf, or at the request, of Consultant. Such repair or replacement shall be performed by craftsmen skilled and experienced and shall result in conditions that existed as of the Effective Date of the Contract.

6. Concealed Conditions

- a. Contract Drawings showing the approximate location of existing and new utility lines, if any, have been identified and located as accurately as possible using readily available information. However, the Consultant is responsible for verifying the accuracy of all locations. If utilities require relocation or rerouting Consultant shall notify the Village and cooperate with the Village to make the required adjustments.
- b. If utility service which is shown on the Drawings is interrupted for any reason, Consultant will work continuously to restore such service to the satisfaction of the Village at no additional cost to the Village. Should Consultant fail to proceed expeditiously with appropriate repairs, the Village shall have the right to have any needed repairs completed and the cost of such repairs shall be deducted from any amount due or to become due to Consultant.
- c. If utility service, which is not shown or which is misidentified on the Drawings, the existence or proper location of which could have been discovered by careful examination and investigation of the Project site by Consultant, is interrupted for any reason, the entire cost to restore service to the satisfaction of the Village shall be paid by the Consultant.
- d. Consultant shall promptly, but in no case more than ten (10) days from discovery and before the conditions are disturbed, notify the Village in writing of:
 - i. Subsurface or latent physical conditions or any condition encountered at the site which differ materially from those indicated in the Contract and which were

- not known by Consultant or could not have been discovered by careful examination and investigation of the site of the proposed work.
- ii. Unknown and unexpected physical conditions at the site, of an unusual nature, differing materially from those ordinarily encountered in the locale or generally recognized as inherent in the work provided for in the Contract.
 - iii. Concealed or unknown conditions in an existing structure which are at variance with the conditions indicated by the Contract, which are of an unusual nature, differing materially from those ordinarily encountered and generally recognized as inherent in the work and which were not known by the Consultant and could not have been discovered by careful examination and investigation of the Project site.
 - iv. If the Village determines that changed conditions do not exist or are not materially different and no adjustment in the Contract Amount or time is warranted, the Consultant shall continue performance of the work. No claim by the Consultant for a change in the Contract Amount or Times shall be allowed unless the required written notice is given and the Village is given adequate opportunity to investigate the conditions encountered prior to any disturbance thereof.

7. Interpretation of the Work

The Village shall in all cases determine the amount or quantity of the several kinds of Work, which are to be paid for under this Contract, and shall decide all questions which may arise relative to the execution of the Contract on the part of the Consultant, and all estimates and decisions shall be final and conclusive. The Village shall have the right to make alterations in the lines, grades, plans, forms, or dimensions of the work herein contemplated either before or after the commencement of the work. If such alterations diminish the quantity of the work to be done, they shall not constitute a claim for damage or for anticipated profits on the work dispensed with, or if they increase the amount of work, such increase shall be paid according to the quantity actually done and at the price or prices stipulated for such work in the Contract. The Village hereby reserves the right to approve as an equal, or to reject as not being an equal, any article the Consultant proposes to furnish pursuant to the Contract.

8. Contract Changes

a. Changes in Work

The Village reserves the right to make changes in the scope of the Contract or issue instructions requiring additional work or direct the deletion of certain work. Any such changes by the Village shall not invalidate the Contract or relieve the Consultant of any obligations under the Contract. Changes to the Work shall be authorized in writing and executed by the Village and Consultant by means of a Change Order.

A change order for work is not necessary, and Consultant shall not be entitled to additional compensation, when the work is reasonably inferable as within the Contract, or, when the Work was made necessary as a result of an error or omission of the Consultant or any subcontractor.

Consultant shall not be entitled to an adjustment to the Contract Amount or Contract Time for any work performed: outside the scope of the Contract and for which no prior written authorization by the Village was obtained; which exceeds the Contract Amount or other agreed upon pricing and for which no Change Order was executed; or relating to differing site conditions that require prior written notice before proceeding as further provided herein.

b. Change Orders

Any adjustment to the Contract Amount or Contract Time shall be made at the time of ordering a change in the Work. The cost or credit resulting from a change in Work shall be determined in one or more of the following ways:

- i. By unit prices named in the Contract or additional unit prices subsequently agreed upon, where no additional amounts for overhead and profit shall be allowed.
- ii. By an amount mutually agreed to by Consultant and the Village as a fixed or percentage fee.
- iii. By agreement on a lump sum proposal submitted by Consultant. Lump sum proposals shall include a detailed cost breakdown for each component of Work indicating both labor and material costs. In addition, there may be added an amount agreed upon, but not to exceed ten percent (10%) of the actual cost, for overhead and profit.

If none of the above methods are mutually agreed upon, a change may be made by unilateral determination of the Village based upon the reasonable costs or savings attributable to the change, including a reasonable allowance for overhead and profit, not to exceed ten percent (10%). If this method is utilized, the Consultant shall promptly proceed with the Work involved in the change, upon receipt of a written order by the Village.

- i. In such case, Consultant shall keep and present an itemized accounting of all materials used, equipment, the cost of labor (including social security, old age and unemployment insurance, fringe benefits to which the employee is entitled, and Worker's compensation insurance), and the fair rental cost of all machinery used for the extra Work for the period of such use. If the extra Work requires the use of machinery not already on the Project site, or to be otherwise used for the Work, then the cost of transportation (up to a total maximum of one hundred (100) miles) of such machinery to and from the Project site shall be added to the fair rental value.
- ii. Consultant shall not include in the cost of the extra Work any cost or rental of small tools, or any portion of the time of the Consultant or the superintendent, or any allowance for the use of capital, insurance or bond premium or any actual or anticipated profit, or job or office overhead not previously mentioned. These items are considered as being covered under the added amount for general overhead.

Pursuant to the Illinois Criminal Code (720 ILCS 5/33E-9), a Change Order or series of Change Orders which authorize or necessitate a net increase or decrease in the cost of the contract by a total of \$10,000 or more, or an increase or decrease in the time of completion

by more than 30 days requires a written determination by the Village supporting the appropriateness of the change. The written determination must state why: the circumstances said to necessitate the change in performance were not reasonably foreseeable at the time the contract was signed; the change is germane to the original contract as signed; and the change order is in the best interest of the Village.

9. Suspension

The Village may, at any time, by written notice to the Consultant require the Consultant to stop all, or any part, of the work required by the Contract. Upon receipt of such a notice, the Consultant shall immediately comply with its terms and take all steps to minimize the occurrence of costs allocable to the work covered by the notice. Consultant shall, upon receipt of notice of suspension, identify in writing all work that must be completed prior to suspension of the work, including all work associated with suspension that must be performed. With respect to work so identified by Consultant and approved by the Village, the Village will pay for the necessary and reasonable costs associated with that work. Consultant shall not be entitled to any claim for lost profits due to the suspension of the work by the Village.

10. Correction of Work

- a. Upon receipt of notice, Consultant shall promptly remove from the site and replace any material or correct any defective work or work that fails to conform to the requirements of the Contract, whether completed or not and whether observed before or after Substantial or Final Completion. Consultant shall pay all costs of correcting such work or material including the cost of additional professional services necessary, and the cost of repairing or replacing all other work damaged by such removal or replacement.
- b. If within one year after the date of Substantial Completion (or such longer period of time prescribed by any special guarantee or warranty) any work is found to be defective, Consultant shall promptly, at its sole cost and expense and without cost to the Village, repair, replace or correct such defective work along with any damage to other work resulting therefrom.
- c. Consultant's obligations under this Paragraph are in addition to any other obligation or guarantee or warranty contained in the Contract and shall survive the termination of the Contract. The terms of this Section are not in lieu of, and shall not be construed as a waiver of, any applicable statute of limitation or repose.
- d. If the Consultant fails to correct defective work within a reasonable time, the Village may perform the necessary corrections. A Change Order will then be issued reflecting an equitable deduction from the Contract Amount for the costs of correction incurred by the Village. The costs of correction will be deducted from payments due to the Consultant or, if no further payments are due to Consultant, then the Consultant's surety will be responsible for said payment.

11. Warranty

- a. Consultant warrants to the Village that all material and equipment furnished under this Contract shall be new and of the most suitable grade for the purpose intended and that all work shall be of good quality, free from faults and defects and in conformance with the Contract. Prior to Final Completion, Consultant shall deliver to the Village all warranties required under the Contract, or to which Consultant is entitled from manufacturers, suppliers, and Subcontractors. All warranties for products and materials incorporated into the work shall begin on the date of Substantial Completion.
- b. Neither the final payment nor partial or entire use or occupancy of the site by the Village shall constitute an acceptance of work not done in accordance with Contract or relieve the Consultant or its sureties of liability with respect to any warranties or responsibilities for faulty or defective materials and workmanship. Consultant or its sureties shall remedy any defects in work and any resulting damage to work at its own expense. Consultant shall be liable for correction of all damage resulting from defective work. If Consultant fails to remedy any defects or damage, the Village may correct the defective work or repair damages and the cost and expense incurred shall be paid by or be recoverable from the Consultant or its surety.
- c. Consultant warrants that the work shall be done in a workmanlike manner in strict accordance with the Contract and guarantees that the labor, material, and equipment will be free of defects for a period of one (1) year from the date of Substantial Completion unless otherwise provided.
- d. Consultant warrants that no materials or supplies for the work purchased by Consultant or any Subcontractor are subject to any chattel mortgage or other condition or agreement by which an interest is retained by the seller. Consultant further warrants that he/she has good title to all materials and supplies used in the performance of the work, and any such materials and supplies are free from all liens, claims or encumbrances. Consultant agrees to indemnify and save the Village harmless from all claims and costs incurred with respect to the lawful demands of Subcontractors, laborers, workmen, mechanics and suppliers of machinery, parts, equipment, tools, and materials arising from Consultant's breach of this Section.

12. Documents

- a. Ownership
All drawings, specifications, reports, and any other project documents prepared by the Consultant in connection with any or all the services furnished hereunder shall be delivered to the Village for the expressed use by the Village. All documents, memoranda, drawings, designs, specifications, calculations, computer programs, computer discs, records, notes, samples and information recorded in any tangible or computer form generated or prepared by or at the direction of Consultant shall be the exclusive property of the Village.

Consultant shall provide such work product to Village immediately upon request or termination of this contract for any cause, and such work product shall be of a quality to

assure total reproducibility of the documents delivered. In particular, the Village may request, at no additional cost, the delivery of additional sets of drawings or documents if the Consultant fails to deliver a fully reproducible document. Consultant shall not publish, in any technical articles, publications or otherwise, information obtained from performing this Contract on behalf of the Village, without the prior written consent of the Village.

The provisions of this Section shall survive the expiration, conclusion, and termination of this Contract.

b. Deliverables

Deliverables, including but not limited to, any plans, specifications, reports, or other project documents prepared by Consultant pursuant to this Agreement shall be the exclusive property of the Village.

Consultant shall provide the Village with the Deliverables both printed form and electronically. All reports and related information shall be compatible with the latest version of the Microsoft Office Suite of Products. All CAD related information shall be compatible with the latest version by Autodesk Corporation. Deliverables in printed form shall be of a quality that assures total reproducibility by the Village.

13. Payment(s), Retainage & Withholdings

a. Submissions of Invoices

Invoices must have the Purchase Order prominently displayed on page 1 of the invoice and shall provide a detailed breakdown of the amount billed, including the name, title, rate of pay, hours worked and services rendered by each individual during the period stated. Invoices shall reflect all prior amounts billed and paid to date. Invoices shall be accompanied by a progress report setting forth the rates of completion for all tasks scoped and for all deliverable products.

Invoices shall not be deemed due and owing unless and until the following are submitted:

- i. Updated construction schedule.
- ii. Legally effective release(s) and waiver(s) of lien covering work for which payment is being made.
- iii. Legally effective release(s) and trailing waiver(s) of lien(s) covering work for subcontractors for which prior payment to Consultant has been made.
- iv. Any other documents requested/required by the Village.

b. Contract Line Items

The Consultant is required to complete contract line items to 100% before including the quantity on a pay request.

c. Liquidating Damages

Invoices will be paid net of any damages assessed by the Village against the Consultant as outlined in this Contract.

d. Withholding

Notwithstanding the terms herein, and without prejudice to any of its other rights or remedies, the Village shall have the right to withhold from any payment that may be or become due such amount as may reasonably appear necessary to compensate the Village for any actual or prospective loss due to defective work or work that does not conform to the Contract; damage for which the Consultant is liable; state or local sales, use or excise taxes that may have been paid by Consultant or any of its Subcontractors; any lien or claim of third parties, subcontractors or suppliers regardless of merit; inability of the Consultant to complete the performance of the work; or any other failure by the Consultant to perform any of its obligations under the Contract. The Village shall be entitled to retain all amounts so withheld until the Consultant either performs the outstanding obligation or furnishes security in a form acceptable to the Village for such performance.

e. Final Payment to Consultant

Upon completion of the work and approval by the Village, and upon receipt and approval of all closeout submittals required under the Contract and all final certified payroll reports and original final waiver(s) of lien, the Village will pay the Consultant the final payment within thirty (30) calendar days thereafter. No final payment shall become due and owing, however, unless and until Consultant shall completely repaired or replaced, at no expense to the Village, any damage to existing buildings, paving, landscaping, streets, drives, utilities, or other Village property arising during the performance of the work or incidental thereto caused by Consultant, any Subcontractors, material suppliers, or others performing work on behalf, or at the request, of Consultant.

The acceptance by the Consultant of final payment shall constitute a release and waiver of any and all rights and privileges under the terms of the Contract, and shall relieve the Village from any and all claims or liabilities for anything done or furnished relative to the work or for any act or neglect on the part of the Village relating to or connected with the Contract. Any payment, final or otherwise, shall not release the Consultant or his sureties from any obligations under the Contract or the performance bond and payment bonds.
