## VILLAGE SPECIFICATIONS

### Base Bid Services

The following Specifications and other provisions shall govern the performance of the proposed Work and will be made a part of the Agreement with the successful bidder.

The Tree Removal work include the costs for the following three (3) categories of work:

1. Removal of parkway trees.
2. Tree Stump Removal - Grinding of stumps and disposal of woodchips and other wood material generated from the removal of trees.
3. Restoration and backfilling of stump excavations with clean topsoil.

Tree Removal Lists containing the street name, numbered address, diameter, of a minimum of five (5), and a maximum of thirty (30) parkway trees to be removed shall be provided to the Contractor.

### Removal of Parkway Trees

The Contractor shall remove all parkway trees designated for removal by the Village. Removal shall consist of cutting down each tree in a safe manner to a point no greater than four inches above the adjacent ground level. The Contractor will comply with all applicable OSHA and other applicable federal and state regulations when removing trees. The Contractor will comply with rules and regulations, OSHA 29 CFR Part 1926.

The Contractor shall not use the practice of "flopping" trees. All trees shall be "limbed out" prior to the final cutting of the trunk. Street lights, street signs, sidewalks, curbs, street pavement and manhole structures shall always be protected from the impact of falling wood by use of tree or limb ground supports. Ropes or other mechanical devices shall be used to lower all limbs of sufficient size that may cause damage to other trees or surrounding public or private property. All ruts, divots and depressions caused by the removal of the tree shall be filled to adjacent grade level before leaving the work site.

All designated trees must be removed within fifteen (15) business days after the Contractor has received a list from the Village.

### Tree Stump Removal

The Contractor shall remove the stumps of all tree removals unless otherwise specified by the Village. All stumps and buttress roots shall be ground to a depth at least eight (8) inches below a line between the back of curb and the top of the sidewalk or an existing grade as determined by the Village and, generally, will be considered to be the grade that is consistent with the plane of the parkway outside any mounds or depressions caused by, or adjacent to the tree. Buttress roots shall consist of all roots, having a minimum diameter of two (2) inches, extending up to the ground surface or above located within a five (5) foot radius from the center of removed tree. All stumps on each Removal List shall be completed within seven (7) business days after all trees on said Removal List have been removed.

**Restoration and Backfilling with Soil**

Within seventy-two (72) hours after grinding the stump and buttress roots, the Contractor shall remove all stump grindings and associated debris from the site and complete the backfilling operation at the same time. Backfilling shall coincide with the removal of the grinding debris.

Disposal of grinding debris generated by work described in this Agreement shall be the responsibility of the Contractor. Stumps, grindings, and debris shall be placed away from the curb and gutter, street, sidewalk and private property to eliminate hazards to the motoring public and pedestrians.

The Contractor shall backfill each tree removal site unless otherwise specified by the Village. Areas where stumps have been removed, and areas disturbed by the removal operation, shall be back-filled with pulverized black soil (topsoil), free of debris, clods and stones, and excavated to the level of the existing grade as determined by the Village.

The level of grade shall be recognized as a line between the back of curb and the top of the sidewalk or the existing grade and generally will be considered to be the grade that is consistent with the plane of the parkway outside any mounds or depressions.

The Contractor shall supply his own topsoil which has received the prior approval of the Village. The topsoil shall be properly leveled and compacted so as to ensure a minimum amount of settlement of the back-fill material. In the event that the topsoil cannot be placed when the stump grinding debris is removed, the disturbed area(s) shall be barricaded off to ensure public safety and the Village shall be notified. Grindings (woodchips) and debris shall not be used as backfill material.

At the discretion of the Village, the Contractor may be required to leave the excavated area open, after stump grinding, for the purpose of inspection by the Village. All open holes must be protected and covered to protect pedestrians/bicyclists from tripping in, or stepping into, or through holes as per OSHA standards. Covering or sheeting material shall have a minimum thickness of 3/4-inch and constructed of 1) CDX Plywood 2) HDO 3) Plyform 4) Combi Exterior Plywood 5) Omni Form. Cover or sheeting material must also extend, at minimum, 2-feet away from the entire perimeter edge of excavation (i.e. all sides). The site shall also be secured with MUTCD approved devices (i.e. barricades and/or safety cones).

**Demand Hourly Services (Non-emergency)**

The Contractor will be required to perform additional services (tree removal or pruning) including, but not limited to, branch or log pickup, pruning of broken hanging branches, additional stumping services and removal of trees not located in a traditional parkway setting such as those located in alleys with wire conflicts. If such conditions exist, the Village will notify the Contractor that demand hourly services are requested and work will be performed during normal working hours at the demand hourly rate.

Upon notice, the Contractor will provide crew(s) and equipment to the site within two (2) business days (shortest notice response deadline) or an extended time frame as specified by the Village. Depending on the nature of service request, the crew size will vary; however, the Contractor must receive approval of crew size from the Village before commencing work.

**Emergency/Disaster/Catastrophe Services**

Parkway trees may require immediate removal or pruning to ensure public safety (i.e. wind storms). If such conditions exist, the Village will notify the Contractor that an emergency exists. Upon notice, the Contractor will provide crews to the site within three (3) hours. When requesting emergency/disaster services, the Contractor shall provide, at minimum, a three (3) employee crew with one wood chip truck, brush chipper and one aerial truck. Depending on the nature of service request, the crew size will vary; however, the Contractor must receive approval of crew size from the Village before commencing work.

Emergency/disaster services shall be provided at an hourly rate per employee hour and include all labor, equipment and materials needed to perform the work to the satisfaction of the Village. The hourly rate shall also include the cost to dispose of all tree debris and related materials.

### **GENERAL CONTRACT PROVISIONS**

#### **Thousand Cankers Disease Compliance Agreement (Illinois Department of Agriculture)**

Any handling of walnut (*Juglans* spp.) tree material must adhere to all regulations set forth by the Illinois Department of Agriculture ("IDA") under the Thousand Cankers Disease Compliance Agreement; applicable to State of Illinois External Regulations on *Juglans* spp. products with regards to Thousand Cankers Disease Complex (*Geosmithia morbida* and *Pityophthorus judlandis*), pursuant to the Insect and Plant Pest Disease Act (505 Illinois Compiled Statutes 90/1 et.seq).

The Contractor shall furnish a copy of signed IDA Thousand Cankers Disease Compliance Agreement to the Village of Wilmette, following all provisions as set forth. The Contractor shall abide by any modifications to IDA Thousand Cankers Disease regulations, including the Compliance Agreement and any state and/or federal quarantine zones established.

All walnut tree material shall be removed from the Village and shall become the Contractor's responsibility to ensure handling of tree materials adheres to State statutes and local ordinances. Any walnut materials that appears suspect of TCD infestation shall be reported to the Department of Agriculture. Under no circumstances shall unprocessed woody material from walnut trees be left for homeowners.

#### **Tree Measurement**

The diameter of trees shall be measured with a standard D-tape at a point 4 ½ feet above the average ground level at the base of the tree. In cases of multi-stemmed trees where the trunk separations begin at 4 ½ feet from the ground or lower, measurement shall be taken one (1) foot below the separation. If a tree becomes multi-stemmed below one foot, the sum of the diameters of the stems measured at 4 ½ feet above the average ground level at the base of the tree shall be the considered the diameter of the tree. If there is soil between the stems, they shall be considered separate trees. Final diameter measurements shall be reported to the nearest inch with rounding up to occur at increments of ½ inch and greater (i.e. 12.50-12.99" = 13.0" dbh) and rounding down to occur at increments lower than ½ inch (i.e. 12.01-12.49" = 12.0" dbh).

#### **Designation For Removal (Tree Tags)**

Trees designated for removal shall be marked with a numbered silver tag at each location. Before commencing tree removal process the Contractor must verify that the tree is both tagged and the number corresponds accordingly to the Removal List issued by the Village.

#### **Posting of No Parking Signs**

Contractor shall examine the area surrounding the trees to be removed and determine, in sufficient time prior to initiating the Work on each Removal List, whether "No Parking" signs are necessary to allow access to trees. Contractor shall contact the Village to obtain the appropriate signage from the Village and the Contractor shall post them as necessary. "No Parking" signs must be displayed for forty-eight (48) hours prior to enforcement. Contractor shall remove all signs upon completion of work in that area. Signs are not to be 'stapled' or 'nailed' to trunks of parkway trees.

## Work Reports

Contractor shall submit a written or verbal report on each day that work is performed to the Village listing completion dates, locations and numbers of parkway trees removed. In order to satisfy this requirement, the Contractor may submit the daily report to the Village via electronic mail or deliver a paper copy of the report to the Village's Public Works Yard, 711 Laramie Avenue, within one (1) business days.

## Work Crew Supervision

At any time the Contractor has one or more crews working in the Village, the Contractor will also have a designated manager level or above representative (i.e. emergency contact) in the Village and available by cell phone within thirty (30) minutes. The representative shall call and provide their name and cell phone number to the Engineering and Public Works Department at 847.853.7500 each day a crew is working in the Village.

The representative shall have a complete working knowledge of the specifications of the Tree Removal Work included herein; oversee the work being performed by the Contractor's crews; and meet weekly with a Village employee to inspect and sign-off on the work performed.

In addition, the representative will also have full authority to:

- i. Manage, engage and/or discharge Contractor's employees;
- ii. Promptly supply any necessary equipment, materials or incidentals; and
- iii. Negotiate on the Contractor's behalf and legally commit the Contractor in writing to any changes, additions or deletions to the Tree Removal Work specifications included herein or new Work requested by the Village in writing up to a limit of \$2,500.

At least one individual shall be responsible for monitoring the job site that has passed and received the "Certified Arborist" or "Certified Tree Worker" designation from the International Society of Arboriculture unless otherwise agreed to in writing by the Village.

## Site Clean-up

The Contractor shall clean up each site where a parkway tree has been removed. This shall include removal and disposal from the site of all debris at the end of each day's operation. No debris may be allowed to remain on the parkway for more than twenty-four (24) hours or over the weekend without prior consent from the Village.

Site cleanup shall include removal of sawdust, small twigs, chips, leaves, trunks and limbs from the street, curb, parkway, sidewalk, private lawns and driveways with the appropriate tools for the job. The site shall be returned to the same state it existed in prior to commencement of any work.

The Contractor will be responsible for any costs associated with repairs that may be needed after completion of contractual tree removal. In the event of snowfall, debris must be immediately cleaned up so it does not interfere with Village snow plowing operations.

### **Wood and Debris Disposal**

The Contractor is responsible for the disposal of all debris from a site and returning the site to its original state after removing a tree.

Limbs and trunks may be temporarily placed in the parkway areas in such a manner as to eliminate any obstruction, including site line, obstructions to motor vehicles and pedestrians. Brush and limbs cannot be stored overhanging any street pavement, driveway or sidewalk. Under no circumstances shall these materials be allowed to lie on the parkway overnight unless the Village has granted specific permission. Violation of this will result in the Village assessing liquidated damages as specified within the contract.

### **Working Hours and Holidays**

Normal working hours will be between 8:00 AM and 5:00 PM, Monday through Friday; however, when given prior approval by the Village Manager or their appointed representative (at least 48 hours prior to commencing work), removal operations may also occur on Saturdays between the hours of 9:00 AM and 6:00 PM. Traffic control shall be in compliance with the *Manual of Uniform Traffic Control Devices* and IDOT Standard Specifications. Sec. 900. Yellow flashing lights mounted on a vehicle shall not be deemed sufficient or adequate protection. Questions of sufficiency shall be resolved to the satisfaction of the Village.

During tree removal operations, the Contractor shall have the responsibility to block the street at each intersection or appropriate section of the block using proper signage and barricades to prevent any motorized vehicle from entering.

The Contractor shall notify the Village of Wilmette at 847-853-7500 or [pubworks@wilmette.com](mailto:pubworks@wilmette.com), Regional Emergency Dispatch Center (RED) at 847-724-5700 and Wilmette Police Department (non-emergency) at 847-256-1200 for street closure. Normally, the road cannot be completely blocked off. Upon request, the Village will furnish maps denoting locations of state and county street jurisdictions within the Village limits.

More importantly, within school zone areas and other areas where children are present - such as around day camps or day care areas – tree removal shall not take place during normal commuting hours. The Village shall provide the Contractor with appropriate information regarding the school areas and times of these activities.

### **Damage and Protection of Public and Private Property**

The Contractor is responsible for any damage to public or private property caused by the Contractor's operation. The Contractor shall be responsible for reporting any damage (i.e. public and private property), caused as result of Contractor's work performance under this contract, immediately to the Village. Due to the nature of the work, and the likelihood that claims of damage may arise, the Contractor is also responsible for documenting conditions of the work site, including public and private property, prior to commencing work. The Contractor shall notify the Village of any damage that exists prior to commencing work.

The Contractor shall take all necessary precautions to eliminate damage to adjacent trees, street lights, street signs, shrubs, lawns, curbs, walks, driveways and/or other real or personal property. The Contractor's vehicles shall be located on the paved surface of a street and will not use private driveways or block any public sidewalk. The Contractor will be responsible to repair or replace any pavement or sidewalk broken or damaged as a result of work operations. Holes made in lawns, regardless of size, shall be filled with screened top soil. To eliminate the possibility of creating ruts, the Contractor shall use three-quarter inch (3/4") thick, or thicker, plywood under the tires of any equipment driven on the parkway. The Village shall have final determination of necessary restoration. Equipment shall not enter private property unless the property owner consents or the Village has obtained signed right-of-entry release forms for the required removal. Vegetation surrounding a tree marked for removal shall be disturbed as little as possible.

The Contractor shall resolve any claims for damage with the property owner within twenty (20) business days after damage occurs and provide confirmation of resolved status to Village. Should the damage not be rectified within the time frame agreed upon or to the satisfaction of the property owner, and/or the Village, the Village reserves the right to repair or replace that which was damaged by the Contractor and deduct this cost from any payment due the Contractor. In addition, the Village reserves the right to repair or replace any pavement or sidewalk damage caused by the Contractor and deduct those costs from any payment due the Contractor.

### **Protection of Overhead Utilities**

Tree Removal operations may have to be conducted in areas where overhead electric, telephone, and cable television facilities exist. The Contractor shall protect all utilities from damage and follow all safety precautions and procedures required when working near such lines. The Contractor shall immediately contact the appropriate utility if damage should occur, and shall be responsible for all claims for damage due to the Contractor's operation. When necessary, the Contractor shall make arrangements with the utility for removal of all necessary limbs and branches which may conflict with

or create a hazard in conducting tree removals. When the Contractor has properly contacted the utility, the Contractor shall notify the Village of their request.

**Discontinuance of Work**

Any hazardous work practice(s) being conducted as determined by the Village shall be immediately discontinued by the Contractor upon receipt of either written or oral notice to discontinue such practice(s). Also, the Contractor shall not continue any work which he considers dangerous and shall immediately notify the Village.

The Village reserves the right to determine where and when the Contractor can work if it is determined that the work will result in unsafe conditions. For example, working near a school before school begins in the morning or after school ends in the afternoon. In cases such as these, it may be agreed upon by the Village and the Contractor to schedule work at specific times in order to alleviate safety concerns.

**Inspection of Work**

All work shall be completed to the satisfaction of the Village including any questions as to proper procedures or quality of workmanship.

**Liquidated Damages For Noncompliance With Contract**

No deduction or payment of liquidated damages will release the Contractor from further obligations and liabilities to complete the entire Contract. Allowing the Contractor to continue and finish the Work, or any part of it, after the expiration of any stated completion date shall not constitute a waiver on the part of the Village of any liquidated damages due under the Contract.

Unless specific permission has been granted to do otherwise by the Village, the Contractor is required to remove all debris from the work sites at the end of each day. If the Contractor fails to comply with this requirement, the Village may claim liquidated damages in the amount of fifty (\$50) per site for each night that the material remains at the site and this may be deducted from any amount due the Contractor from the Village. In addition, the Contractor is liable for any damages or liability to the Village or third parties caused by the failure to properly remove debris from a site promptly.

**Base Bid Services**

Should the Contractor fail to meet the designated starting and completion dates, a penalty of fifty dollars (\$50) per tree shall be owed and paid by Contractor for each consecutive Calendar Day beyond the Completion date applicable to each Tree Removal List that is not removed within the time stated.

The Contractor is responsible to remove trees within fifteen (15) business days. If the Contractor fails to make good effort to remove the trees within the allocated period, the Village will officially notify him of the default. If the Contractor fails to rectify the situation within three days, the Village will assess liquidated damages against the Contractor in the amount of fifty dollars (\$50) per tree, per calendar day until the situation is rectified.

Demand Hourly Services

Should the Contractor fail to meet the designated starting and completion dates, a penalty of fifty dollars (\$50) per tree per calendar day shall be owed and paid by Contractor for each consecutive Calendar Day beyond the Completion date applicable to each tree at each site that is not removed within the time stated unless otherwise approved in writing by the Village.

Emergency/Disaster/Catastrophe Services

Should the Contractor fail to meet the designated starting times with the minimum required number of personnel and equipment, a penalty of five hundred dollars (\$500) per hour, shall be owed and paid by Contractor for each consecutive hour beyond the applicable starting time stated unless otherwise approved in writing by the Village.

Designated Manager Level or Above Representative

If the Contractor's designated manager level or above representative does not respond within thirty (30) minutes of receiving notification of an emergency, the Engineering and Public Works Department will use Village personnel to remedy the emergency and deduct costs incurred from the payments under the contract. A minimum deduction of \$50 will be made for each time the Village has to provide an emergency service.
