Crime Alert

Between 2:00 AM and 3:00 AM on Tuesday, February 4th, offenders stole a vehicle from the 1000 block of Seminole Rd. They used a garage door opener found in an unlocked car in the driveway to enter the attached garage. Two more unlocked vehicles were inside, both with keys. They were able to steal only one car as the other was blocked in. The stolen vehicle was later recovered by Wilmette Detectives in a south suburb.

Intelligence from Wilmette and area departments is that many of these offenders are armed with handguns while committing these burglaries and auto thefts. Residents are reminded NOT to confront these individuals but to call 9-1-1. We need your help to discourage this criminal element from entering our community. Hide or remove valuables from your vehicles, Take your keys and key fobs and Lock your doors.
